

TRENCH SAFETY

Don't Leave Safety To Chance, Call United Rentals Trench Safety!

United Rentals is the nationwide leader in trench safety, with an extensive rental fleet capable of handling virtually every job site requirement. We know that the safety of your workers is your number one priority, and it's ours as well. Our trench specialists will review your site plans with you, and make sure your equipment rentals suit your needs. You'll find that we can often suggest ways to minimize installation and restoration costs without compromising efficiency or safety. In situations where the underground infrastructure poses special difficulties, depend on United Rentals to provide the answers.
