## *New LeeBoy 8816 Delivered to Donniker Construction, Inc.*

If you see a specialized paving project in Calaveras or Tuolumne Counties and surrounding areas, you can bet that Donniker Construction Inc. is on the job. Experienced in difficult and challenging projects, they maintain the best crews and the best equipment to get the job done right and on time. A large portion of their success can be credited to having the best equipment. They bought their first paver from Nixon-Egli Equipment Co. fifteen years ago, a LeeBoy 8000BH and that machine is still working in their fleet. They have now taken delivery of this new LeeBoy 8816. David Anderson, commenting on the new paver said, "With the 10 ton hopper and 8' to 16' paving width, this medium size machine can compete against the big pavers. There is no project that we can't bid." Matt Anderson added, "I really appreciate the new electronics, control heads and the full track for control and operation. The electrically heated screed automatically maintains the load temperature, eliminating propane tanks."

When you need paving in California's motherlode, your best call is Donniker Construction, Inc. at (209) 795-0302. When you need paving equipment and the best product support in the business, call Nixon-Egli Equipment Co.

*We're your factory authorized dealer for the full line of LeeBoy paving equipment.*
